Ivashenko N.A. Dieselbuilding in Ukraine / N.A.

Ivashenko, A.P. Marchenko, V.G. Djachenko // Internal
combustion engines. – 2011. – № 1. – P. 8-11.

Landmarks in the history of enginebuilding from the
times of Rudolf Diesel up to now are considered in the article.

The main reasons of decline in the Ukrainian enginebuilding
are mentioned. According to the present situation
the new renaissance wave in machinebuilding, tractorbuilding
and motorbuilding could be in the case of effective implementation
the technical intellect in the country. Bibliogr.
