

UDC 621.436

U.V. Storcheus Scientific work at the chair of ICE VNU
named after Dal' / U.V. Storcheus // Internal combustion
engines. – 2011. – № 1. – P.68-72.

The main landmarks of enginebuilding establishment
on the East of Ukrain from 60th up to now are regarded. It is
shown that chair of ICE - one of the oldest University chairs,
which was established in April 1967, over a period of existence
has played a significant role in formation and development
of engine building in the Ukraine. A wide spectrum of
the scientific problems solving by the chair always was directed
to the solving of actual tasks in engine building. Il. 11.
