Timoshevsky B.G. R. Diesel, E. Nobel, G. Trinkler - the special role in diesels building / B.G. Timoshevsky, V.S.

Nalivajko // Internal combustion engines. – 2011. – № 1. –

P.92-95.

In the article a big role of engineers and scientists R.

Diesel, E. Nobel, G. Trinkler in diesels building of Russia,

Ukrain and all around the word is mentioned. All contradictoriness

in relations between them is considered – if Nobel

wouldn't stop development of the Trinkler's engine and tried

to bring Trinkler's ideas into Diesel's engine it could take

some benefits in diesel building development. II. 3. Bibliogr.
