

# Software Engineering and Management Information Technology Department

## Specialties Description

<http://asu.kh.ua/>

2017

# NTU "KhPI"

National Technical University "Kharkiv Polytechnic Institute" is the oldest technical university of Ukraine. Computer specialties are more than 50 years old in NTU "KhPI". NTU "KhPI" is in the top 15 of IT universities in Ukraine.

## Faculty of Computer Science and Software Engineering

Faculty was launched in 2000 in response to the urgent needs of scientific and technological progress of modern human community and, in particular, Ukraine's economic development.

# SEMIT Department

- Was founded by professor A.V. Dabahyan in **1964**.
- **1964** – department: "Automatic Control of Movement", specialties: "Flight Dynamics and Ballistic Rockets Control", "Computer-aided Management Systems"
- **1977** – department: "Computer-aided Management Systems", specialties: "Computer-aided Management Systems", "Information Management Systems and Technologies", and "Computer-aided Systems Software"
- **2015** – department: "Software Engineering and Management Information Technologies", specialties: "Computer science" and "Software Engineering".

- Graduates – more than 2000
- PhD – more than 100
- Doctors of science – more than 20

# Team

*Our team combines scholars, researchers, post-docs and assistants who inspire students to achieve their goals.*

Head of Department:  
Prof. Mykhailo GODLEVSKYI, Dr. of Tech. Science,

Contacts: e-mail - [god\\_asu@kpi.kharkov.ua](mailto:god_asu@kpi.kharkov.ua), phone/fax +380577076520

# Teaching

We provide Education Programs for Bachelors, Masters and PhDs levels in

1. Computer Science
2. Software Engineering

# Research

- ☐ Business Data Mining Based on Web-monitoring
- ☐ Simulation-Based Models for Distributed Logistics
- ☐ Processing of weak-structured textual data
- ☐ Quality Improvement of Software Development Process

# Teaching: Key Points

- ```
public class TcpClientSample
{
    public static void Main()
    {
        byte[] data = new byte[1024]; string input, stringData;
        try
        {
            server = new TcpServer();
        } catch (SocketException)
        {
            Console.WriteLine("Unable to connect to server");
            return;
        }
        NetworkStream ns = server.GetStream();
        int rcv = ns.Read(data, 0, data.Length);
        int enc = Encoding.ASCII.GetBytes(data, 0, rcv);
        Console.WriteLine(data);
        while (true)
        {
            input = Console.ReadLine();
            if (input == "exit") break;
            newchild.Properties["id"].Add(
                ("Auditing Department"));
            newchild.CommitChanges();
            newchild.Close();
        }
    }
}
```
- ✓ ***Math and Programming Background***
  - ✓ ***English and language skills***
  - ✓ ***Cooperation with real business***

# Core subjects

| Fundamentals                            | Software Technologies               |
|-----------------------------------------|-------------------------------------|
| Calculus                                | Coding and Programming Languages    |
| Discrete Mathematics                    | Numerical Methods                   |
| Special Sections of Operations Research | Object-Oriented Programming         |
| Probability Theory                      | Programming (Java, .NET, PHP)       |
| Mathematical Statistics                 | Computer Networks                   |
| Queue Theory                            | Software Architecture and Design    |
| Theory of Algorithm                     | Design and Maintenance of Databases |
| Modeling and Simulation                 | Mobile Software                     |

# Teaching in English

## English level monitoring (1<sup>st</sup> year students)

## Software Engineering Training (in English)

- ✓Language classes
- ✓The second foreign language
- ✓English for academic purposes

# Partnership with Business

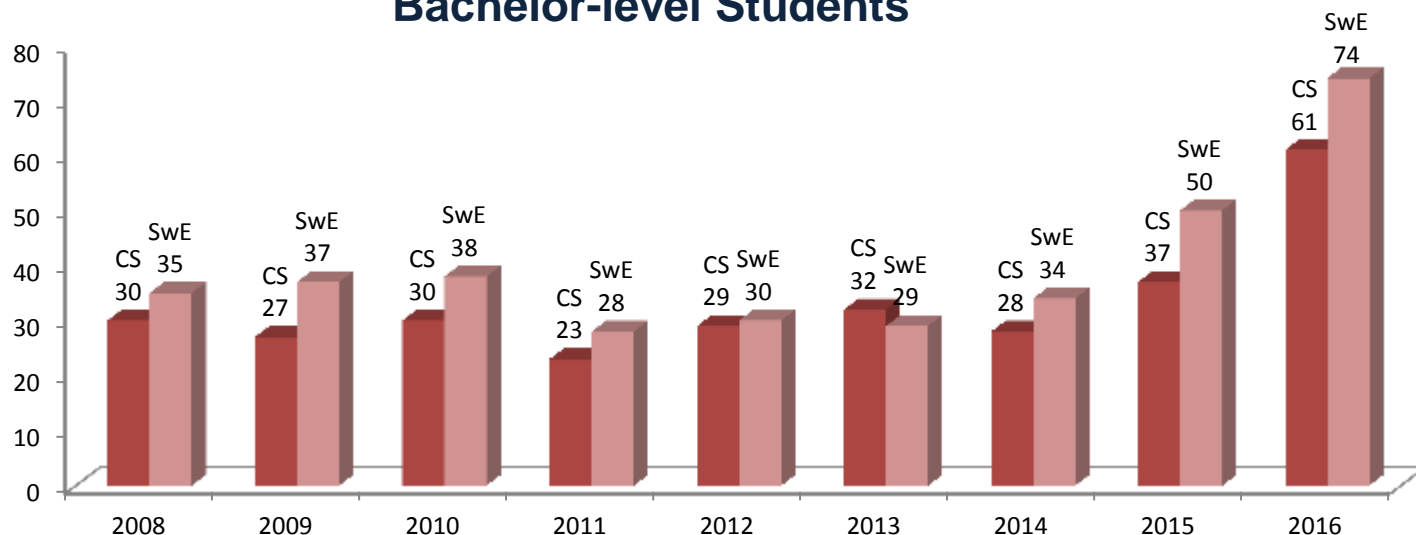

GlobalLogic

# Amount of Students

## Bachelor-level Students

## Master-level Students

# Teaching

**Bachelor Program in Computer Science**  
Information and Management Systems and Technologies

**Master Programs in Computer Science**  
Software Project Management

Business Analysis and Management

**PhD Program in Computer Science**  
Information and analytical technologies for monitoring  
and management of complex systems

**Bachelor Program in Software Engineering**  
Engineering of Software Systems

**Master Programs in Software Engineering**  
Software of Intelligent Systems  
Distributed Software Systems and Technologies

# Master Program "Intelligent Systems Software"

## Core courses:

- ☐ Basics of Intelligent Systems Design;
- ☐ Theory of Intelligence;
- ☐ Agent-Oriented Paradigm of Software Systems Development;
- ☐ Mathematical Fundamentals of Computational Intelligence;
- ☐ Intelligent Search and Data Analysis;
- ☐ Prospective Concepts and Technologies of Intelligent Software Systems;
- ☐ Models and Technologies of Software Security.

# Master Program “Distributed Software Systems and Technologies”

## Core courses:

- ☐ Architecture and Technologies of Distributed Software Systems;
- ☐ Models and Software Tools for Distributed Computing;
- ☐ Cloud Techniques and Applications;
- ☐ Engineering Design Patterns and Integration of Corporate Applications;
- ☐ Engineering and Re-engineering in Business Systems;
- ☐ Models and Techniques of Enterprise IT-infrastructure Management;
- ☐ Prospective Concepts and Technologies of Distributed Software Systems.

# Master Program “Business Analytics”

## Core courses:

- ☐ Software Requirements Analysis and Management;
- ☐ Methods and Models of Management in Modern Business Systems;
- ☐ Engineering and Re-engineering in Business Systems;
- ☐ Documentation and Communication in Business Analytics;
- ☐ Information Systems in Management;
- ☐ Data Analysis and BI-techniques;
- ☐ Cloud Computing.

# Master Program "IT Project Management"

## Core courses:

- ☐ Project Management Standards and Methodologies;
- ☐ Quality management in IT-projects;
- ☐ Planning, Implementation and Finalizing of IT Projects;
- ☐ IT Project Teams Forming and Development;
- ☐ Risk Management in IT Projects;
- ☐ Information Technologies in IT Project Management;
- ☐ Methods of Project Evaluation.

# Current International Projects

- ❑ Erasmus+ Programme KA2  
Establishing Modern Master-level Studies  
in Information Systems  
561592-EPP-1-2015-1-FR-EPPKA2-CBHE-JP
- ❑ Erasmus+ Programme KA1  
Higher Education Student and Staff Mobility Inter-  
institutional agreement between Poznań University  
of Economics and Business and National Technical  
University "Kharkiv Polytechnic Institute"
- ❑ Erasmus+ Programme KA1  
Higher Education Student and Staff Mobility Inter-  
institutional agreement between The Alpen-Adria-  
Universität Klagenfurt and National Technical  
University "Kharkiv Polytechnic Institute"

# Alumni perspective positions

- ☐ Quality Assurance Engineer;
- ☐ Software Developer;
- ☐ Project Manager;
- ☐ Business Analyst;
- ☐ Database Administrator.
