

## CONTENTS

<b>Beschetnikov D.A.</b> Experimental study of the strain state at the area of a surface defect in a steel cylindrical shell subjected to internal pressure . . . . .	3
<b>Vodka O.O., Tykhyj D.K., Trubayev O.I., Ul'yanov Yu.M.</b> Investigation of pipeline dynamic characteristics under laboratory conditions . . . . .	8
<b>Grishchenko V.N., Tomin O.S., Lomov S.G.</b> Dynamical finite - element models of shafts transmissions machines in ANSYS . . . . .	21
<b>Kalinovsky A.Ya., Larin O.O., Vodka O.O., Bashtavoj V.M., Кайдалов R.O.</b> Experimental study of vertical vibrations of specialized vehicle with non linear suspension moving through a single roughness . . . . .	31
<b>Krasnikov S.V.</b> Model of capacity for work of steam turbine foundation . . . . .	38
<b>Larin O.O., Grinchenko K.E.</b> Vibrations of a biaxial tanker with account time lag effects of random excitation . . . . .	44
<b>Leleka S.V., Vodka A.A.</b> The cloud computer system for automation of engineering calculations using CAD SolidWorks . . . . .	60
<b>Lvov G.I., Martynenko V.G.</b> Numerical-analytical study of orthotropic viscoelasticity of fiberglass illustrated by repair layer of main pipeline . . . . .	68
<b>Martynenko G.Yu.</b> History, actual problems, methods and phenomena analysis tools of rotor dynamics taking into account traditional and magnetic bearings . . . . .	77
<b>Misiura S.Y.</b> Influence of structural parameters and operational factors on the vibration frequencies of hydroturbine lids . . . . .	132
<b>Okorokov V.O.</b> Experimental determination of the Bauschinger effect and material damage . . . . .	141
<b>Shuklinov S.N., Zalogin M.Yu.</b> Imitations study of dynamic processes the mechanism tilting cab truck . . . . .	154
<b>Shupikov A.N., Sviat Ye.V.</b> Nonstationary problem of heat conduction in a three-dimensional formulation for laminated cylindrical shells of complex shape: Theory and Experiment . . . . .	161
<b>Darya zadeh S., Lvov G. I., Kiahosseini S. R.</b> A new numerical method for determination of effective elastic constants in a composite with cross-ply fibers . . . . .	169
Abstracts (in Ukrainian) . . . . .	181
Abstracts (in Russian) . . . . .	185
Abstracts . . . . .	189
